SCARF

Set Up

Pull out one end of yarn A and count out 14 loops. You'll be working on just 12 loops. This length of 12 loops will be the beginning of your Scarf, the other 2 loops are the beginning yarn tail and will be secured later.

Lay this length of 14 loops onto a flat surface, with the end of the yarn on your left hand side.

Check to be sure that all loops are facing upwards and that the loops aren't twisted.

Make your Scarf

Now you'll be working in rows across the length of loops.

Tip

This yarn is designed so that the loops stay in place – you can set the Scarf down at any point and the loops won't come undone!

The yarn that's coming from the yarn ball is called the working yarn.

Hold the working yarn behind the length of loops.

With your thumb and index finger, reach through the first loop (14th loop from the end) on the beginning of your Scarf.

Pull the next loop from the working yarn

through the first loop.

Working across the length of loops from right to left, continue to pull the next loop of working yarn through the next loop on the Scarf until you've pulled up 12 loops - and have 2 loops remaining for the yarn end.

You'll work the second row in the same way as the first row, but working from left to right to pull up a loop of working yarn in each of the 12 loops on the Scarf.

For the third row, continue pulling up loops of the working yarn, this time working from right to left.

Continue to pull up loops back and forth in rows across 12 loops until you don't have enough of yarn A to do another row AND you're at the end of a row. If needed, trim the yarn tail of yarn A to about 2-3 loops, and leave this yarn tail hanging.

Change to working with yarn B.

Leave 2-3 loops of yarn B hanging, then with B as the working yarn, continue to work back and forth in rows across the 12 loops of the Scarf.

Stop working with yarn B when you don't have enough of the working yarn remaining to do another row AND you're at the end of a row.

Finish your Scarf

Now you'll need to finish off your loops. Drop the working yarn.

Working in the same direction as the last row you made, pull the second loop through the first; pull the third loop through the second; pull the fourth through the third – and so on across to the end of the row.

Now you're back at the side with working yarn. Carefully snip the remaining loops off the working yarn tail. Pull working yarn through the last loop and knot.

Carefully snip the remaining loops from each yarn tail. Just snip the loops off, don't cut through the yarn! Pull each of the trimmed tails through the loops of the Scarf to secure them.
