NOTES

When changing colors, drop the color you've been using and pick up the next color from underneath.

Carry color not in use up the edge of the border.

Bring yarn to wrong side of work before changing colors.

Front and back refer to the piece as you are knitting it. If working a wrong-side row, and slipping a stitch with yarn in front, bring the yarn to the front as you're working it, which is the wrong-side row, slip the stitch, then return yarn to the back of your work to knit the next stitch.
