NOTES

1. Frames can be filled any way you like, from eclectic to controlled
2. Mix and match yarns you have on hand, differences in weight add extra interest.

PROJECT

Create beautiful handmade décor with yarn you have on hand. This project is a great use for small amounts of leftover yarn, and can be a fun activity for children and adults alike.

FRAME SETUP

Step 1: Find a frame that has at least a half inch depth in your desired size. Searching for 'shadow box' or 'fillable frame' online can give you lots of options.

Step 2: Choose the yarns you'd like to showcase. Strands of yarn can be layered or wrapped into small balls for different effects.

Step 3: Decide if you'd like a planned design or a freeform one.

Step 4: If choosing a planned design, it can be helpful to draw it out on paper. This works well if your frame is set with the clear side down to fill, as you can use it as a template.

For more freeform designs, play with the placement and amounts of different yarns to find the one you like best.

Step 5: Create your design by combining yarns in your frame.

Step 6: Make any adjustments to individual elements or the design.

FINISHING

Finalize your design and close up your frame.
